

Because it's Wood!

WE'RE TOPS FOR YOUR SHOP

More than 100 years of experience in the fabrication of "Rock-Hard" Maple Butcher Block Tops guarantees you the highest degree of craftsmanship in the industry today.

Edge grained laminates of *Wood Welded*[®] Maple assure you that **YOUR TOPS ARE THE TOPS** when it comes to durability and construction strength. All woods are solid maple electronically bonded together utilizing controlled pressure and resin adhesives, accurately planed and sanded, and finished with our *DuraKryl*[™] 102 coating. This tough, non-toxic coating will repel alcohol, bleach, even paint thinner. And best of all... after years of hard wear and tear, without any special tools or particular skill, you can resurface or repair your tops and make them look like new again.

WorkStation Tops

MICHIGAN MAPLE BLOCK COMPANY AND BALLY BLOCK COMPANY WE'RE TOPS FOR YOUR SHOPS *and lab's too...*

DOWEL GUIDE PINS—**A**

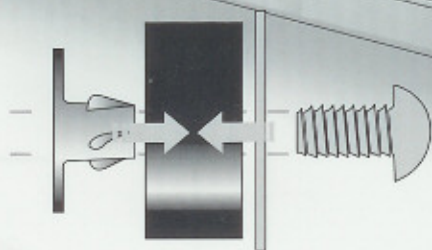

The (4) four 9/16" dowel guide pins assure perfect alignment as both tops are drawn together.

STEEL ROD BOLTS—**B**

Three (3) 3/8" dia. steel rod bolts are counter sunk to allow the drawing together of both tops making an invisible center joint.

REMOVABLE BOLT COVERS—**C**

The unique design of these six (6) removable covers makes any periodic adjusting of the tops simple and easy in order to allow access to the steel rod bolts while providing a design feature to your workstation.

REMOVABLE BOLT COVERS—

As you tighten the hex cap screw, you are expanding the rubber washer to make a tight fit to the the counter-sunk hole, assuring accessibility to the steel rod bolts only when **you** want to make an adjustment.
